## Outreach

We believe in giving back to our community. We currently support a mission family in the Dominican Republic that is feeding, clothing, and helping those less fortunate to develop physically as well as spiritually. We also support an organization called SEAPC that ministers over in South East Asia. One of the many outreaches of this organization is treating children over in Tibet with congenital heart disease.

## Customers

We understand that our customers are the only reason that we exist.

We are large enough to handle the tough jobs, yet small enough to provide personal service to those we serve.

## Employees

We recognize that without our committed employees we cannot succeed. Therefore, we give every employee the chance to become the best they can be. We allow our employees the opportunity to grow with us.

## Vendors

We understand the importance of quality products. Therefore, we are very selective as to whom we do business with. We strive to treat our suppliers as part of our team because we are proud to do business with those that do business with us.
